Coursework

Graduate
- Python, Java
- C / C++
- DSA
- IOT

Projects

Textile Shop Website
Present
- Developed a responsive, user-focused website to showcase the shop's product catalog with category-based filtering and intuitive navigation.
- Optimized performance for cross-device compatibility, ensuring consistent and fast user experiences.
- Structured the frontend for seamless backend integration, enabling future support for inventory and order management features.

Personal Portfolio Website
06/2025
- Built and deployed a portfolio highlighting projects in frontend development, testing, and technical training with a responsive, modern UI.
- Showcased real-world work including interactive apps, automation frameworks, and educational tools.
- Demonstrated clean coding practices and user-focused design, increasing visibility among recruiters and learners.

Freelancer, *Website Developer*
10/2022 – 12/2023
- Created responsive websites with mobile-first design to improve user engagement.
- Built backend functionality to support dynamic content and real-time updates.
- Delivered a cracker shop site with live pricing, boosting visibility during peak season.

Web-Based Mail Client
10/2023
- Developed a full-stack mail client with secure user authentication and personalized inbox management.
- Implemented real-time message updates, unread counts, and mail deletion features for smooth user interaction.
- Delivered a responsive, cross-device UI optimized for performanceand user experience across all platforms.

Education

B.E. Computer Science and Engineering,
AAA College of Engineering and Technology
08/2017 – 08/2021 | Sivakasi
Percentage: **78%**

Courses

Frontend Development, *Sharpener*
04/2023 – 04/2024 | Online
- Gained strong expertise in Data Structures and Algorithms (DSA), Web Development, and Frontend Technologies.
- Completed an intensive frontend development course with hands-on project experience.
- Built visually appealing and functional web applications through practical learning.
